

EmblemHealth Medicaid Pharmacy Network Change

On September 13, 2017, the pharmacy network for EmblemHealth's Medicaid and Health and Recovery Plan (HARP) members is changing from Walgreens National Network to Walgreens Advantage Network.

This means your patients may have to start using a new pharmacy to get their medicine. We already sent a letter to our Medicaid and HARP Plan members telling them about this change.

When you write their prescriptions, please ask them to choose a new pharmacy. Use the Pharmacy Locator at express-scripts.com/emblemmedicaid. In-network pharmacies help our members save money and can improve their experience.

Costs Remain the Same

Please remind members that they can still use the same medicine and their copays will stay the same.
